Nigeria is blessed with so much sunshine, so why not exploit it. Solar power systems use energy from the sun to save people money and resources. The solar panels are made of silicon which is a resource that grows on trees. Without these panels, our planet will be overpopulated with pollutants that harm us in many ways.

Changzhou Jiji Solar Power Co., Ltd. is founded on the principles of specialization, size, and global expansion. It has introduced a full complement of today's modern 200MW solar photovoltaic module manufacturing lines. Its management and R& D teams are made up of senior industry specialists. Its products are sold in Germany, Spain, the Netherlands, Italy, the United ...

Jiji (TM) This solar panel multi meter can test the maximum power point and open circuit voltage of photovoltaic panel. The photovoltaic panel power supply s method is more energy-saving and does not require additional electricity.
