

New Energy Battery Energy Storage Industry Conference

When is the UK energy storage Conference 2024?

Wednesday, 10 April, 2024 - 09:00 to Friday, 12 April, 2024 - 17:00 Join us in Nottingham for the highly anticipated UK Energy Storage conference, where innovation converges with expertise.

What is the Aurora Battery Conference?

Having grown into one of Europe's largest events for battery storage and other flexible energy technologies, the Aurora Battery Conference blends our original analysis with insights from leading figures in industry, finance, and policy. We look forward to welcoming you.

What is the Aurora Battery Conference 2024?

The Aurora Battery Conference 2024 has quickly grown into one of the largest energy storage-focused events in the UK. Illuminate strategies for navigating risks such as grid congestion. Discuss the most promising markets for BESS projects. Explore how to maximise value within each market.

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. workshops, an after-party, private networking dinners and much more!

How big will battery storage be by the end of the decade?

The International Energy Agency (IEA) has forecast that the global installed capacity of battery storage will need to rise from less than 200 GW to more than a terawatt by the end of this decade.

Energy Storage deployment will continue to grow rapidly across Europe, in particular Germany and France, as new frequency and capacity services emerge. In the UK, balancing mechanism and wholesale energy ...
