

# Photovoltaic panel wooden corner guard

What is pigeon-proof solar panel guard?

Shield your solar panels from birds while enhancing their appearance with Pigeon-Proof Solar Panel Guard. This premium alternative to bird mesh comes in 80' lengths of black powder-coated aluminium trim, which can be easily cut to fit the edge of your array.

Why should you choose Solarguard's protection system for solar panel Bird Protection?

Easy installation and remarkable efficiency make Solarguard Pro the ideal safeguard for your renewable energy endeavour. Why choose the Solarguard's Protection System for Solar Panel Bird Protection?

What is Clenergy solar trim ultra Bird Guard?

Clenergy specialise in the development, manufacturing, and marketing of solar mounting gear, leading towards a globally sustainable future. The Clenergy Solar Trim Ultra Bird Guard is an innovative solution, designed to protect solar panels from wind-blown debris collecting and birds nesting under PV panels.

What is Solarguard & how does it work?

Solarguard is ideal for bird control around solar arrays that are on profiled roofs or on panels that do not have a lip for the traditional clip and mesh proofing system. **LOOKING FOR INSTALLATION SERVICES?**

How does a solar panel guard work?

The product features an outer corner cap that effortlessly slides onto the trim, allowing you to wrap it around the outside corners without any tools. In addition to deterring birds, this guard hides unsightly gaps, wires, and rails, giving your panels a sleek, blacked-edge finish. Best of all, installation won't affect your solar panels' warranty.

Why do PV panels need a bird guard?

Simply clipping onto PV panels, the bird guard ensures that the natural ventilation beneath the modules is preserved. This is crucial to prevent the panels from overheating, which can cause performance issues, earth leakage problems and a reduction to the overall lifespan of the system.
