

# Qiannan Solar Steel Support Company

Who are solar steel & imports?

Solar Steel and Supports are the two companies in the group dedicated to designing and supplying ad hoc photovoltaic solutions for each type of project. We design and supply solar trackers and fixed structures for the solar photovoltaic sector with global design, manufacturing and supply capabilities.

Where are supports solar steel products available?

Since 2014 Supports has its own Mexican branch ,SUPPORTS ENER&#205;A SUSTENTABLE SAPI de CV and since 2018 together with Gonvarri Colombia and Gonvarri &#199;epas our products are available in Colombia and Turkeyrespectively. Gonvarri Solar Steel carries out large-scale ground-mounted photovoltaic projects.

Who are solar steel?

Solar Steel are manufacturers of steel modular ballasted support systems for commercial PV and Thermal collector project installations. We supply support systems for Landscape and Portrait installations in any configuration. All of our materials are UK only sourced to provide the highest quality systems along with unbeatable 15 year guarantees.

Who is Gonvarri solar steel?

Product design is based on industry best practice, with a strong R&D component, seeking cost-optimised and efficient customised solutions. Gonvarri Solar Steel focuses on the research, design and supply of metal structures for the solar photovoltaic sector.

What makes supports a leader in the solar industry?

The trajectory of Supports in the sector for more than 17 years,combined with its engineering capabilities and organizational strength,positions it as a leader in the solar industry. Supports is a brand within Solar Steel,solar division of Gonvarri Industries.

In the photovoltaic (PV) solar power plant projects, PV solar panel (SP) support structure is one of the main elements and limited numerical studies exist on PVSP ground mounting steel frames to ...

Supports by Solar Steel is the integrated C& Ibrand of Gonvarri Solar Steel, dedicated to the design, manufacturing, and supply of quick-mount solutions for all types of solar energy installations. ...

Discover Solar Steel's commitment to sustainability here. ... This ambitious plan aims to make us a completely carbon-neutral company by 2050, adopting concrete actions to reduce our emissions and promote sustainable practices. ... Our contribution: We firmly support the health of our employees through our ...

Your most reliable partner | Solar Steel es una empresa líder en el diseño y suministro de trackers y estructuras fijas para el sector solar fotovoltaico internacional. Desde 2005 ha suministrado más de 21 GW en 45 países diferentes acumulando la solidez tecnológica, financiera y humana necesaria para convertirse en ...

photovoltaic (PV) and solar thermal technologies. Using steel to build the support structures makes it even more sustainable as steel is a durable and 100% recyclable material. ArcelorMittal supports the move to clean energy generation by offering high-performance steels, advanced metallic coatings, and structural solutions for

The company is the sum of talent, technology, and innovation. As a global enterprise with a strong international presence, human capital is one of our brand's main assets. Our team shares a common goal: to meet customer needs by minimizing LCOE, CAPEX, and OPEX in solar projects through innovative solutions and the reliability of our products and services.

The company offers a wide range of products, tailored to the needs of each client, market, and project, from solar trackers to fixed structures for utility-scale projects, with Suports, a...

Why Choose Galvanised Steel for Solar Panel Support Systems? Now that we understand what galvanised steel is, let's explore why it's the ideal choice for supporting solar panels. 1. Durability and Longevity. Solar panels are a long-term investment, often with warranties extending 25 years or more. The support system needs to match this ...

Solar Steel supplies metallic structure for any CSP and PV technology, with capabilities of designing, manufacturing and operating final assembly lines on site. Always considering a ...

Steel is widely used in the building, manufacturing, and construction of solar support structures. The use of steel tube, lip channel, open profile, and sheet metal has numerous advantages including structural integrity, the extended life span of pre-galvanized and 3CR12 material, and is 100% recyclable.

Some galvanized steel applications are: Construction -- People use galvanized steel for roofing, walling, foundations, and structural components such as beams, columns, and frames.; Automotive -- Manufacturers use ...
