Do you use Visio for network diagrams?

There was a YouTuber that had some nice stencils, but when I politely asked for them, I got crickets. Seems making money is more important than sharing with fellow enthusiasts. I can do napkin and crayon, but I'd prefer to have something a little easier to read. I've used Visio extensively in the past for network diagrams.

Where are the visio photovoltaic panels

A solar cell or photovoltaic cell (PV cell) is an electronic device that converts the energy of light directly into electricity by means of the photovoltaic effect. [1] It is a form of photoelectric cell, a device whose electrical characteristics (such as current, voltage, or resistance) vary when it is exposed to light. Individual solar cell devices are often the electrical building blocks of ...
